

# FRANCIS ROLAND BISSAH

## Quality Assurance & Backend Engineer

Takoradi, Ghana | 0256728245 | rolandbissah10@gmail.com | github.com/RolandBissah10

### PROFESSIONAL SUMMARY

Quality Assurance Engineer with hands-on experience in manual and automated testing (Selenium, REST Assured, JMeter) and defect management in Jira, backed by a backend development background in Java and Spring Boot. Brings a developer's understanding of system architecture to testing, enabling faster root-cause analysis, clearer defect reports, and closer collaboration with engineering teams to ship reliable software.

### WORK EXPERIENCE

#### Quality Assurance Engineer — AmaliTech Services GmbH, Takoradi

Nov 2025 – Present

- Perform manual and automated testing (Selenium, REST Assured, JMeter) across web applications, improving release reliability and reducing recurring defects.
- Log, categorize, and track defects in Jira, providing clear reproduction steps to speed up developer resolution.
- Execute API tests with REST Assured and performance tests with JMeter to surface bottlenecks and validate system behavior.
- Collaborate within Agile/Scrum ceremonies alongside cross-functional development teams to align on quality standards and delivery timelines.

#### Back-End Developer Intern — AmaliTech Ghana, Takoradi

May 2024 – Oct 2024

- Built REST APIs in Spring Boot consumed by the front-end team for the GTP Management System.
- Developed a Java-based mail sender application to streamline internal communication.

#### IT Support — Effia Nkwanta Regional Hospital, Sekondi-Takoradi

Sep 2023 – Nov 2023

- Monitored and maintained local network infrastructure, ensuring reliable connectivity and secure user access.
- Diagnosed and resolved hardware, software, and network issues, minimizing downtime for hospital staff.
- Maintained IT asset and incident records, supporting accurate reporting and knowledge continuity.

#### IT Support — Western Naval Command, Sekondi

Aug 2022 – Sep 2022

- Resolved technical issues for staff and customers across mobile and digital service platforms.
- Maintained core software systems supporting transactions and customer management.
- Kept computers, printers, and related equipment in good working condition.

### SELECTED PROJECTS

#### AmaliTech ServiceHub Application

- Executed manual and automated testing (Selenium, REST Assured) and performance testing (JMeter), identifying bottlenecks and defects ahead of release.
- Tracked and documented issues in Jira, improving cross-team visibility and resolution speed.

#### AmaliTech Sign Language Translator Application

- Supported backend API development and testing within an Agile team, validating functionality across frontend/backend integration.

#### GTP Management System & Mail Sender Application

- Delivered backend features in Spring Boot and Java supporting internal management workflows.

#### QA as a Service

- Built an automated, AI-assisted web QA platform that crawls a target URL, discovers pages and UI elements, and generates and executes tests to detect bugs.
- Designed multi-tenant project architecture with team membership, role-based access, HTTP session recording, and automated reporting.

#### Smart Job Alert System

- Developed a FastAPI-based job scraper and alert platform that matches listings to user criteria, tracks users, and sends automated notifications.

## SKILLS

---

- Testing: Selenium WebDriver, REST Assured, JMeter, Manual & API Testing, Defect Tracking
- Programming: Java, Python, JavaScript, HTML, CSS, Spring Boot
- Tools: Jira, Git, GitHub, Postman, Kanban, Docker
- Languages: English, Twi, Fante

## CERTIFICATIONS

---

- AWS Certified Cloud Practitioner — AWS, 2024

## EDUCATION

---

### Bachelor of Technology in Information & Communication Technology

Jan 2022 – Sep 2025

*Takoradi Technical University, Ghana*

## ACTIVITIES & LEADERSHIP

---

- Head Prefect, Nana Anaisie Memorial School — led student initiatives that contributed to improved BECE academic results; captained the volleyball team to an inter-school championship.
- Member, Google Developer Student Club (TTU) — participated in tech events and collaborative projects fostering technological innovation.
